**Subject:** SB 51 Amendment Request

I talked to Tony late yesterday and he said that he had discussed with Luther and Steve the idea of encouraging more CTE through the three years math and science. Following up on that discussion, would it be possible to get a simple to the sub with the language below? My understanding is that Tony had talked about this concept with the Governor's office as well. Our proposed language is as follows:

A school district may permit a pupil who is a CTE Concentrator to substitute a CTE course for up to one credit each of math and science toward the graduation requirements in s. 118.33. A CTE Concentrator pupil must meet the definition under the federal Carl Perkins IV Act.

This amendment would target flexibility toward students who are dedicated to CTE pathways and would hopefully move to encourage other students to consider CTE Concentrator status.

Let me know what you think.

Hi Tracy,

I was supposed to ask you to send me the same amendment that Sarah in Olson's office received regarding the Computer Science bill that combines both simple amendments. Can you do this for me?

Thanks,

Ariana
